PACKAGING

The SHB Prestige Packaging Line combines a high reputation and image with strong and successful finishing

Our prestige customers benefit from optimized designs, proven manufacturing technologies and more than 30 years of experience in the packaging industry. The ideas and innovations arise through intensive collaboration with our customers. For the SHB-Prestige Line, we develop new and modern packaging lines as a complete solution and accompany our customers from the design stage through series production to finishing. All from a single source! The proximity to the customer and the constant dialogue with our producers and processing partners in Germany and within Europe is a secret of our success. Test us, we will be happy to respond to your individual wishes and ideas and develop your individual prestige design.

Finishing Process

Metallization Decoration

High-vacuum metallization and instant UV drying premises are managed by a team of highly qualified professionals. Our Partners provide a protective coating of top lacquer to colour the surface and provide a range of finishes from mirror silver, gold, satin, matt, glitter, dégradé, metallic colours, masking areas, etc.

PRESTIGE

Laser Engraving Decoration

If you are looking for a long-lasting and unique decoration for your Packaging - Laser engraving is the noblest path. In contrast to traditional methods such as printing or embossing and with focus to a maximum recyclable solution - laser engraving is considered as the sustainable way of decoration through our strong partner.

Screen Printing Decoration

Through our partners, we take care of the screen printing on your packaging! Our experts will advise you in detail on many options and will work with you to find the most economical way to implement your ideas.

Finishing Process

Hot Foil Stamping Decoration

In addition to pad & silk printing, the finishing of hot foil stamping is a specialist area of our strong partners. The technique creates elegant surfaces with metallic gloss effects of outstanding quality.
